CEDAR KEYS (Fla.), May 26th.— Mayor Cottrell has not yet been caught. Relatives aver that he has left the State, never to re-

turn, but this statement is viewed with sus-picion. The details of Cottrell's crimes

and the manner in which he terrified the town are coming to light every day. Cot-trell is credited with the killing of three or

four men, and he has maltreated several

The Cruel Fate of a Young and Beauti

ful Irish Immigrant.

New York, May 26th.—Another out-rageous case of the abduction of an immi-

grant girl has come to light, that of Mary

Regan, a pretty young Irish girl, who landed in New York from Cork last week.

A few days before the steamer arrived, Miss Galvin, of Asbury Park, a cousin of

Mary Regan, received a letter informing her of Miss Regan's impending arrival. Miss Galvin asked her uncle, Michael Gal-

vin, to accompany her to the office of the

Emigration Commissioners in New York,

ound that the girl had arrived and that she

had been turned over to a man who repre-

sented himself as Michael Galvin, the

girl's uncle. They were also told that this man claimed to live on Fifty-seventh street,

New York. Galvin and his niece went to

the address given and found a vacant lot.

This afternoon the girl became somewhat lucid, and said that she had been taken to

house by her supposed uncle, where she

Books Printed in Foreign Languages are SARATOGA, May 26th .- At the Presbyte rian General Assembly to-day the report of the Committee on Synodical Records was read. The suggestions were mostly approved. The report of the Standing Committee on Publication was delivered by its Chairman, Dr. Howard Crosby. Resolutions were offered approving the work and recommending the appointment of a com-mittee to consider the expediency of publishing Sunday-school helps and literature in the German and Scandinavian lan-

guages.

The text of the resolution adopted con cerning the use of the Bible in public schools is as follows: WHEREAS, A recent decision of the Supreme Coart in one of the States affirmed the Bible as sectarian book and its use in the public schools unconstitutional; and whereas, we see in this decision no mere local matter such as affects simply the people of that State, but the culmination of that effort which is being made with relentless pertinacity by a foreign hierarchy to overthrow the system of public schools throughout the land; therefore.

out the land; therefore,

Resolved, That we affirm the importance of our public schools to the welfare of our people; that with intellectual cultivation must go moral training, or schools may prove a curse rather than a blessing. But this meral training must be based on religion, otherwise its sanction will not be strong enough to grasp the conscience of the people, or its utterances obligatory enough to shape their character; that as the Bible is the source of the highest moral teaching, we regard its exclusion from public schools as a menace to the national welfare, and we urge members of the church to so arouse public thought on this subject from the pulpit, the press and ecclesiastical assemblages, that this book shall be restored to its true place in our system of education.

Interview With President Diaz-New Tazift Schedule. CITY OF MEXICO, May 26th.—President Diaz, in speaking of the filibustering movement in Lower California, told the Associated Press correspondent that he placed little importance in the movement. He knew the United States Government would not allow neutrality to be violated, and the

Mexican Government would protect her territory. It had sufficient forces in Lower California to repel any invasion. Secretary of the Interior Emanuel Romero Robio says that all the statements that the natives in Lower California are in league with the filibusters are false, and he has advices that the natives are ready to operate against any invader. Telegrams received here state that the people of Lower California are a unit against the filiousters, and statements to the contrary are false. AN AUTHORS' TRUST Falter Besant, the Novelist, Has Formulated a New Scheme.

London, May 26th.—Walter Besaut, the English novelist, has formulated a scheme by which he proposes to evade the copyright law. He intends forming what may be called an authors' trust, formed of authors in England, France and the United States. The plan is simple, and the only question is as to its practicability. He suggests that books over which authors desire to extend the United States copyright laws shall be written in collaboration with some American writer.

Thus Haggard, who now claims to lose

oo a year because he can't get an Amer ican copyright, could have Bunner or Aldich put a few touches to one of his books and have his name attached as a literary partner, then all rights could be reserved, and Haggard would get royalties. Each English, German and French author could choose a literary partner, and so, practi-cally, the benefit of international copyright could be enjoyed without the passage of the bill recently defeated at Washington.

London, May 26th .- Lord Knutford, the Colonial Secretary, has received an angry adiress to the Queen from the Newfoundland Legislature. The address protests in the loudest manner against French aggressions, and of the bounties and smugglings which the English Government appears to tolerate, and absolutely declines to consent to arbitration of the lobster dispute. The Legislature calls upon the Imperial Government to cause the removal of the bsteries, and to stop all fishing privileges

By the reckless use of the pistol he gained control of the town, elected himself Mayor twice in succession, cowed the local Courts, took such property of others as he wished without leave or payment, turned people out of their houses and occupied the premises himself, courted and won a wife in a few days though she was engaged to marry another, defied the Florida and and Federal authorities, and generally them upon a far-distant reservation. ruled the whole community as absolutely as a pronounced autocrat. Of course there are about the man qualities that have some attractive power; as, for instance, his extreme liberality in the expenditure of money, his redress of the wrongs of the the world has received a benefaction that weak, and his absolute fearlessness.

But for all that he did not yield, but carrying his bulldozing too far he interfered with Federal authority and a gunboat was ordered to the place. Soon after its arrival Cottrell disappeared, and it is said that he has fled from the State of Florida never to return. But so terrorizing was this strange man, and so completely had he cowed Cedar Keys that the people refuse to believe he has gone not to return, and they therefore continue to experience the fear with which he had married on Saturday, at the residence of the bride's mother, Judge W. A. Henry performing inspired them when in their midst.

The War Department has instructed the Engineers in charge of the Sacramento river to examine and report at once if it is true that the larger volume of water is passing through the Paine break, and if the crevasse ought now to be wholly closed in order to give the river full scouring capacity. On the basis of information at hand, we believe that if such examination hand, we believe that if such examination is made now, it will be found that the only true policy is to close the break, and if that cannot be done, to open the channel below it to encourage the flow in the river. A skilled river engineer who examined the break as recently as Saturday last, declares that the dispatch sent to Washington a few days ago by the Chairman of the Executive Committee of the River Convention, was not only not exaggerated, but not strong enough. Every house should have one of our wonderful Dry-Air ALASKA REFRIGERATORS. Remember, buy none but an ALASKA Refrigerator for the following reasons:

First-Because the ALASKA is constructed upon strictly scientific principles, by which low temperature and dryness of air are naturally and inevitably obtained. The ALASKA is the only Refrigerator with these

Second-The ALASKA possesses the only provision chamber free from odor. We defy any other Refrigerator to show this improvement. Third-The ALASKA produces a dry, cold air, which no other Refriger-ator can do. This is one of the great-

est ice-saving attachments ever in vented. Fourth-The ALASKA has preserved fresh meats perfectly for three weeks in hottest weather. Has any other Refrigerator ever done this? Fifth-The economical use of ice depends upon the principal involved, the construction of the Refrigerator, and in utilizing all the cold air. The ALASKA REFRIGERATOR exclusively controls these most excellent

Sixth-The principal causes of de cay in meats and fruits are dampness and varying temperature, causing the expansion and contraction of tissues, which hasten decay; hence a dry atmosphere and uniform temperature conduce to their perservation. These can only be found in the ALASKA. Seventh-The use of ice, once regarded as a luxury, has become almost universally necessity, and no house should be without an ALASKA REFRIGERATOR.

THE NEWS OF THE WORLD IS CONTAINED IN the WEEKLY UNION.

POSSIBLE OBSTACLE IN THE WAY OF IMPROVING L STREET.

Non-Confirmation of the Perry Seminary Sale—That Seventeenth-Street Sewer Nuisance.

The Board of City Trustees met yesterday morning with all three members present. Engineer Judd, of the water works, reported that during the past week 32,408,000 gallons of water were pumped. The Holly engine was in operation seventy-seven hours and the Stevens ninety-four hours.

TENTH-STREET IMPROVEMENT. A communication was received from M. J. Dillman, Manager of the Bell Conservatory, reminding the Board of the fact that as Tenth street was about to be graded and graveled from N to Y, the street from W to Y should not example a street from W to Y should not again be graveled, as this had I should not again be graveled, as this had already been done. All that was needed ferred the matter to him with full power on those two blocks was a little filling in and leveling, as was being done all over town. As far as the rest of the street was concerned, he believed the city ought to Mysterious Disappearance of the New pay one-half the cost of grading, hackmen and undertakers one-fourth, and the remaining one-fourth by the property owners. The Bell Conservatory was willing to

A remonstrance was received against the improving of Tenth street from N to Y, and it was referred to the Street Commissioner. A majority of the property on the street was represented by the signers on the peti-tion, but it was a noticeable fact that they were all residents beyond R street. A HITCH ABOUT L STREET.

A communication from the Sacramento Street Improvement Company was read, reciting the fact that, upon the examination of the papers in the matter of grading L street, from Fifteenth to Twenty-eighth, found that a remonstrance, signed by the owners of a majority of frontage, had been filed with the Auditor on March 19th, and business stands on the public side that subsequently certain persons signing the same attempted to withdraw their names. They (the company) were advised that this could not be legally done, and that it follows that the said remonstrance was a bar to the improvement of the street for six months, unless owners of a majority of the frontage on said street shall petition for the work to be done. The company, for this reason, would therefore withdraw its offer to grade the said street until such time as a majority of property-owners on the street should petition again to have the work done. They would then fulfill their contract at the prices for which they had agreed to grade the street. The matter was referred to the City At-

CITIZENS WHO WANT WATER. A petition was received asking that the city water mains be extended so that prop-erty-owners in the block bounded by Twenty-fourth and Twenty-fifth, Q and R streets, could get the city water. Referred to Trustee Wolf.

He said it was originally intended to simply carry off surplus water, but now sewage and cesspool water was being turned into the drain. The stench that rose from the man-holes was dangerous to Jpon motion of Trustee McLaughlin. the Health Officer was ordered to see that all property owners who were emptying their sewage and waste water into the sewer be notified to cease doing so. ASSESSMENT COMPLAINED OF.

E. F. Aitken complained that the assessment on his property in the lower portion of town was not in proportion to the tax levied on property adjoining his. The City assor was ordered to appear next Monday and explain the cause of the irreg-

Mr. Aitken also stated that the attention of the police should be called to rough characters who at different times congregate at the saloon on Ninth and L streets and create disturbances MORE LIGHT WANTED.

It was ordered that the Board meet next Wednesday morning at 10 o'clock to consider the election ordinance. SEWER AND SIDEWALK CONTRACTS.

Upon the recommendation of Trustee McLaughlin, W. Graf, who was the lowest bidder for constructing the sewer on S street from Seventeenth to Sixth, was released from his contract, and the same awarded to the next lowest bidder, Bassett

George Murray informed the Board that a wooden sidewalk had been laid on M street, between Seventeenth and Eighteenth, and the matter was referred to the Street Commissioner. George Murray was awarded the contract

for constructing a brick sewer on Seventeenth street, from R to S. THE PERRY SEMINARY SALE.

H. C. Chipman, President of the Board of Education, stated that there was just \$51,000 left in the school fund, and it was going to cost \$54,000 to pay the teachers' salaries alone. If the City Trustees re-fused to allow the Perry Seminary to be sold for \$10,000 the schools would have to be closed a couple of months earlier on account of lack of funds to run them. Trustee McLaughlin said he didn't think \$10,000 was enough for the property, and wanted the matter of selling it postponed The Mayor held the same views as the

Trustee Wolf thought that if the Board of Education needed the money so much the property ought to be sold. J. Steinman, who was present, was asked his opinion as to the value of the property. He said he thought \$10,000 was a fair price. The building was worth nothing, and if he had bought the place he would have given the building to anyone who would take it away.

After more talk the matter was laid over HOT WEATHER AWNINGS.

E. A. Burr asked the Trustees to permit him to let his awnings in front of Nos. 211. 213 and 215 J street stand for ninety days. THE NEW ELECTRIC SCHEME. A. F. McGrew, a representative of the Sacramento Electric Construction Com-

pany, appeared before the Board to ex-plain the system the company proposed to introduce here if given the opportunity. He said that if they were given a franchise they would agree to expend \$25,000 in eighteen months, and if they did not do this they would be willing to have the franchise taken away again. They would agree to give the city 2 per cent. per annum of their gross receipts, and also furnish one wire for the use of the city.

Thomas Trehell, the electrician of the

company, explained, by means of a model, the plan of the new company, and assured the Board that when the lines were once laid there would be no further tearing up of the streets for repairing them. The matter of granting the franchise was laid over for three weeks.

REMOVAL OF DEAD ANIMALS, Bids for the year's contract for removing dead animals from the streets were opened. E. C. Grubbs was the lowest bidder, offering the city \$10 for the privilege.

Recess until 1:30 P. M. WILL CELEBRATE HIS WEDDING. At the afternoon session Look Hoy, the Chinese interpreter for the Police Court,

asked permission to explode fire-crackers on the occasion of his approaching wed-

may, as his day of trial and tribulation was yet to come.

THE WORKMEN MUST WAIT. When the demands for the wages of the men employed to remove condemned awnings came up, Mr. McLaughlin said they should be paid and the money collected, if possible, from the owners. Finally the matter was laid over one

A VANISHED DOCUMENT.

Sidewalk Ordinance. Trustee McLaughlin yesterday called up his amended ordinance relating to the use contribute \$250. The communication was of the sidewalks by business firms for storing and handling goods at certain hours. He said he wanted action taken on it.

> The Mayor said he would vote for it, but did not wish to impose an unnecessary hardship on firms that were obliged to use the sidewalks in handling and shipping goods. He instanced the case of his neighbors, Neubourg & Lages, on Fifth street, who handle large quantities of grain and flour, and said he was afraid it might interfere with the progress of their business.

Revolution Proposed in the Meat

### DRESSED BEEF PROJECT.

Trade on the Pacific Coast. SAN FRANCISCO, May 26th .- Miller & Lux the Southern Pacific Company and Philip D. Armour of Chicago are preparing the plans for the erection of a million dollar slaughter house, packing house and cold storage house combined, which is to be of sufficient size to supply not only the entire Pacific Coast with dressed and packed meat, but is to reach out for business in British Columbia and other countries

where there is a prospect for a market.

Armour and Miller & Lux's scheme is a most extensive one, and portends an entire revolution in the meat trade of the coast The Southern Pacific Company has assurances of the traffic which the erection of such a packing house would develop. Unlimited capital is at the disposal of the projectors, and their plans will be carried out to the fullest, once the wheels are set in

The site that has met with the mos favor is peculiarly suited to the needs of such a concern. Any one who will examine the map of the broad gauge road between this city and San Jose cannot fail to notice the great bend which it makes to the west in going between San Francisco and Milbrae. This circuitous route was originally chosen so that some heavy work which the adoption of the direct route would involve, would be avoided. Recently the railroad company laid out the route of a more direct line between the city and Milbrae over the original right of way into this city, granted to the Western Pacific Com-

This line contemplates the construction of a tunnel through the high hills back of Hunter's Point. It is said that the completion of this line would shorten the road by five miles and would give the company

other advantages.

The land east of the present line and south of Hunter's point is largely owned by Miller & Lux, and it is on this tract, near the Fourteen Mile House, that the packing house will be constructed, provided the other arrangements are completed. Such a site will afford ready access to rail and water, and will be far enough away from the city to preclude any opposition being made.

The new company has two separate plans combined in the one scheme. It is proposed in the first place to supply the coast ith fresh meat of all descriptions, drawing cattle and other animals from California, Nevada, Oregon, Idaho, Utah, Colorado, Arizona, New Mexico and Texas. This meat will be dressed here and placed in cold storage, being shipped in lots to suit in a similar manner. This is the basis on which the beef business of the East is carried on, and the new company contemplates the absorption or retirement of all the Butchertown establishments. 1. The second branch of the business will

the packing of beef and pork on the same scale and plan as it is done in the East, and as the new company expects to absorb all the trade of the coast and much of that of transpacific countries, some idea may be had of what they contemplate. A gentleman who is interested in the packing trade on a small scale said to day that there would not be the slightest chance for any Eastern packing house to sell goods west of Denver if a suitably equipped establish-ment were in operation on this side, and that not only would the new concern get everything in the Pacific States and Terribut a lucrative business could be worked up abroad.

It was declared to be the unanimous sense of the meeting that Morrow is the strongest and most available George C. Perkins, W. F. Whittier, D. J. Staples, A. R. Briggs, Wendell Easton and W. L. Merry were appointed a committee to communicate with Morrow and ascertain his views in the John Dougherty, the new Chairman of

the Democratic County Committee, will appoint an Executive Committee, one from each Assembly district, whose duty will be to take direct charge of the work of the campaign. This is a new departure and is said to be a step toward the further centralization of power in the hands of Chris. In an address to the Republicans by an

organization styling itself the Executive Committee of the Republican Party of San Francisco, and issued to-night, occurs the following: "We hereby give notice that no barricades, ballot-box stuffing, repeating or kindred outrages perpetrated at former Republican primaries will be tolerated. In the future we demand a fair election and where the ballot-boxes will be at all times in full view of the voter, and where the election officers be Republicans and tax-payers, as provided by law and duly sworn, to properly perform their duties, and where all afeguards of the law that are put in force at general elections shall be applied to this primary election. LOSS OF THE ONEIDA. Seventy-Seven Chinese Drowned -Captain

Anderson's Story. San Francisco, May 26th.—The schooner Alice Kimball, Captain Rasmussen, arrived in port on Sunday night from Sanak Alaska. Among the passengers were Cap-tain Anderson and two officers of the ship Oneida. The latter vessel, which was bound from San Francisco for Thin Point, was sunk near Sanak island on the night of April 26th. The night was clear and the ship was sailing along briskly before a smart breeze when a shock was felt that snook the vessel from stem to stern and started her timbers. She had struck on a sunken rock not on the chart. The fore-mast was carried away, and the water rushed into the fated vessel from all sides, flooding the deck and cabin and finding its

way into the hold. There were 110 Chinese laborers and 45 that followed among the frenzied Asiatics beggars description. They swarmed up on deck, trampling upon each other in their wild efforts to reach the boats. The whites climbed into the rigging or got out the boats. Sea after sea washed the deck, sweeping the terrified coolies into the breakers. The Oneida went to pieces in less than an hour, all her cargo being lost. 77 Chinese had been sucked under the

The Oneida was owned by Louis Sloss and left here on March 28th. Mr. Sloss valued the vessel and cargo at \$60,000, the nsurance on both amounting \$56,000. The Chinese and white laborers who were saved were left at Sanak, and another vessel will be fitted out immediately to take the Oneida's place.

and Drowned. PORTLAND (Or.), May 26th.—George P. Ward, watchman on the Harvest Queen fell overboard to-day and was drowned. His age was twenty-seven. He was a nephew of J. P. Ward, the United States Weigher. Wm. Russell, a hostler, was found dead

to-day. Cause, chronic alconolism. The situation of the strike has undergone a slight modification, inasmuch as the bricklayers have gone to work, as well as a large number of laborers. Not many carpenters are engaged, owing to the fact that there is little work for them to do. It is thought that within the coming two weeks business will be found for all that are idle, and by which time they will be glad enough to accept the wages. The strike has so nearly paralyzed the building movement that some time will be required to get contracts and material ready.

### FRESNO ITEMS.

Subscriptions for a New Railway-Wheat Field Fire. Fresno, May 26th.—Companies C and F, N. G. C., have received a full complement

of the latest improved Springfield rifles from Sacramento. Interest in the railroad to the mountains east of Fresno, the source of lumber and wood supply, is reviving, and \$85,000 has already been subscribed to the project, and an active committee is soliciting every day. Murdered by His Companion. ALBUQUERQUE (N. M.), May 26th.—Saturday afternoon, while working in a ditch, near Islets, two Indians found the body of a man with a bullet-hole in the back of

his head. The Atlantic and Pacific foreman recognized the man as a person who bought a funch at his house. He had a companion who remained some distance from the house. Both went toward the river. This was the last seen of the man until his body was found. The man was evidently on his knees washing when shot, as a piece of blood-stained soap was found alongside. In his pocket was found a letter of recommendation from McClutcheon Payne & Co., of El Paso, stating that the bearer, H. J. Soffel, is an honest, sober and capable employe. His companion has dis Murdered Two Brothers.

ALBUQUERQUE (N. M.), May 26th .- Sun day afternoon a fight took place at Fondre Brothers' vineyard near Los Lunas, where a crowd had assembled to witness a horse-race. Wine flowed freely, and soon the crowd were fighting drunk. Vicente Artiga and two brothers named Conway had a dispute. Artiga drew a revolver and shot the elder Conway, who died in a few moments. Another shot wounded the younge brother, and he is not expected to live. Another ball struck Demetrio Ballegos,

seriously wounding him. Deputy Sheriff Clements made an atmpt to arrest him, when two men jumped in front of Artiga and prevented the latter from shooting the deputy. The murderer was arrested and chained to the floor of the jail, to prevent his escape.

Burned to Death.

SANTA ROSA, May 26th.—The body of E. H. Ashley, in the employ of the Sonoma Lumber Company at Guerneville, was found in a badly charred condition to-day. He was burning brush yesterday, and it is supposed his clothing caught fire, and he was unable to put the flames out and perished. Ashley has relatives at San Jose, who have been telegraphed for.

Death Was Preferable.

SAN FRANCISCO, May 26th.—Victoria Valencia Marisco, aged 15, committed suicide to-day by taking poison. Her father, from whom she had been taken on account of his cruelty to her, informed her on Saturday that he was about to take steps to have her returned to his charge, and the fear that he might accomplish his object caused her to take her life.

WHEN they find how rapidly health is restored by taking Ayer's Sarsaparilla. The reason is that this preparation contains only the purest and most powerful alteratives and tonics. To thousands yearly it proves a veritable elixir of life.

Mrs. Jos. Lake, Brockway Centre, Mich., writes: "Liver complaint and indigestion made my life a burden and came near ending my existence. For more than four years I suffered untold agony. I was reduced almost to a skeleton, and hardly had strength to drag myself about. All kinds of food distressed me, and only the most delicate could be digested at all. Within the time mentioned several physicians treated me without giving relief. Nothing that I technically and in the second several physicians. treated me without giving relief. Nothing that I took seemed to do any permanent good until I began the use of Ayer's Sarsaparilla, which has produced wonderful results. Soon after commencing to take the Sarsaparilla I could see an could see an

in my condition, my appetite began to return and with it came the ability to digest all the food taken, my strength improved each day, and after a few months of faithful attention to your directions, I found myself a well woman, able to attend to all household duties. The medicine has given me a new lease of life, and I cannot thank you too much." you too much."

"We, the undersigned, citizens of Brockway Centre, Mich., hereby certify that the above statement, made by

Chamberlain, G. W. Waring, C. A. Wells, Druggist. "My brother, in England, was, for a long time, unable to attend to his occupation, by reason of sores on his foot. I sent him Ayer's Almanac and the testimonical in the second s timonials it contained induced him to try Ayer's Sarsaparilla. After using it a little while, he was cured, and is now a well man, working in a sugar mill at Brisbane, Queensland, Australia."-
